We are a lifestyle

We reach unique connections with nature's multiple dimensions to activate all the senses of those who choose us, and to provide them daily exclusive experiences.

Enoturism and oleoturism

Over a landscape of blades, rocks, abundant vegetation, lakes, native flora and fauna, which frame a unique ecosystem in the region, exiting sensory experiences are lived at the foot of the plantations. We design circuits for you to know in detail the cellar and the oil mill, where oils and wines of excellence are elaborated, while the tasting of our select products is also enjoyed.

VyO + Cooking experience

We add to the previous option a regional lunch composed of typical Colonia cheese, regional mixed cold meats, vegetables, barbecue buffet (beef and pork meat), regional desserts, mineral water, soft drink and selective wine.
